Problem History:	Status:	Date Opened:	Date Closed:	Number:
------------------	---------	--------------	--------------	---------

10/01/2014	Service	Chlamydia/Herpes PCR	QTY: 1	Provider: Dr. Erin Reyes
	Service	Tritrichomonas Foetus PCR	QTY: 1	Provider: Dr. Erin Reyes
09/16/2014	SOAP	Wellness exam, vaccines, lab tests.		Provider: Dr. Erin Reyes

S: Heaven presented for a routine wellness exam. She is fairly new to owner, so owner is having physical exam and a myriad of testing performed, as well as preventative routine vaccines. Owner has no health concerns except for occasional soft stool. Otherwise, no v/d/c/s, e/d normally, u/d normally. Energy level is normal.
 mm-pk, crt-2sec BCS 5/9

O: Heaven's Physical Examination

Temperature: 100.2 (normal=100-102.5)
 Heart Rate: 140 (normal dog=60-160, normal cat=120-240)
 Respiration: 32 (normal dog=10-40, normal cat=16-40)

Ears: Both the ear canal and pinna are normal. Heaven's tympanic membrane (ear drum) is normal and she seems to hear fine. No ear mites present.

Eyes: Heaven's eye(s) are normal. The eyeballs, eyelids and associated structures appear normal. Heaven appears to have normal vision.

GI/Abdominal Palpation: Heaven's abdominal palpation is normal. This means the kidneys, intestines, liver and other abdominal organs that are palpable are normal (no masses, lumps, fluid, pain).

Heart/Cardiovascular: Heaven's heart is normal. The heart sounds are clear with no murmurs or arrhythmia heard. The pulses are normal.

Lungs/Trachea: Heaven's lungs sound normal with no fluid, crackles or wheezes. The trachea sounds normal and palpates normal.

Lymph nodes/Thyroid gland: Heaven's external lymph

10/09/2014

nodes (submandibular, pre-scapular, axillary and popliteal) all palpate normally. There are no abnormal structures associated with the thyroid gland (cats).

Mouth/Teeth/Gums: Heaven's oral examination is normal. There is no evidence of tartar on the teeth or gum disease.

Musculoskeletal: Heaven's muscles are in good condition. The skeleton is observed to be normal with no lameness noted.

Nervous System: Heaven's nervous system is normal. There are no observable defects in the nerves, spinal cord or brain function.

Nose/Throat: Heaven's nose and throat are normal. Air flows freely through the nostrils, no discharge is noted and there are no difficulties with vocalizing or swallowing.

Skin/Haircoat: Heaven's haircoat and skin are normal. The fur is shiny with a soft texture. There are no signs of parasites or inflammation of the skin.

Urinary/Reproductive: Heaven's urogenital system is normal. The urinary system is functioning normally. The reproductive organs examined are normal.

A: Healthy pet.

P: Giardia ELISA test- Negative

Tritrichomonas F. PCR- Fecal sample sent to Marshfield--
PENDING

FelV/FIV- Negative

Fecal Float-Negative

Administered Rabies (R rear), FVRCP (R front), Leukemia vaccine (L rear)
